S.A.**

SOLUTION PIVOT - CATALOG

THE ESTABLISHMENT, THE EVOLUTION

TEHNI'S HISTORY

TEHNI S.A. was founded in Xanthi in 1988 by Aristides Pantelos.

With a steady upwards course, the company managed to extend its activities by establishing facilities with a total area of 20.000 square meters, in which today it produces Complete Entrance Doors, Panels from Aluminum and PVC Entrance Doors and Anti-mosquito systems.

Through a path of continuous investments, TEHNI managed in the last years to establish itself in the Greek market as the topmost and the quickest evolving enterprise in the aluminum sector.

Today, TEHNI is the largest producer of Aluminum Entrance Doors in Southern Europe, with exports to more than 30 countries worldwide.

Redefining Architectural Design with Affordable Innovation

TEHNI presents the PIVOT SOLUTION, an innovative axial rotation door system that revolutionizes the field of architecture and design. PIVOT SOLUTION supports a multitude of designs and different typologies with side fixed panels, ensuring that any need is met.

Additionally, it is the economic choice in the market, offering high quality and innovation at a more affordable price compared to other pivot doors. Discover the perfect balance between style and functionality with the PIVOT SOLUTION from TEHNI.

The diagram below shows how to calculate the clear opening dimensions for the PIVOT SOLUTION door system, applicable for a door opened at 90 degrees.

Max Door Dimensions: W3000 x H1500 mm

Min Door Dimensions: W2000 x H1000 mm

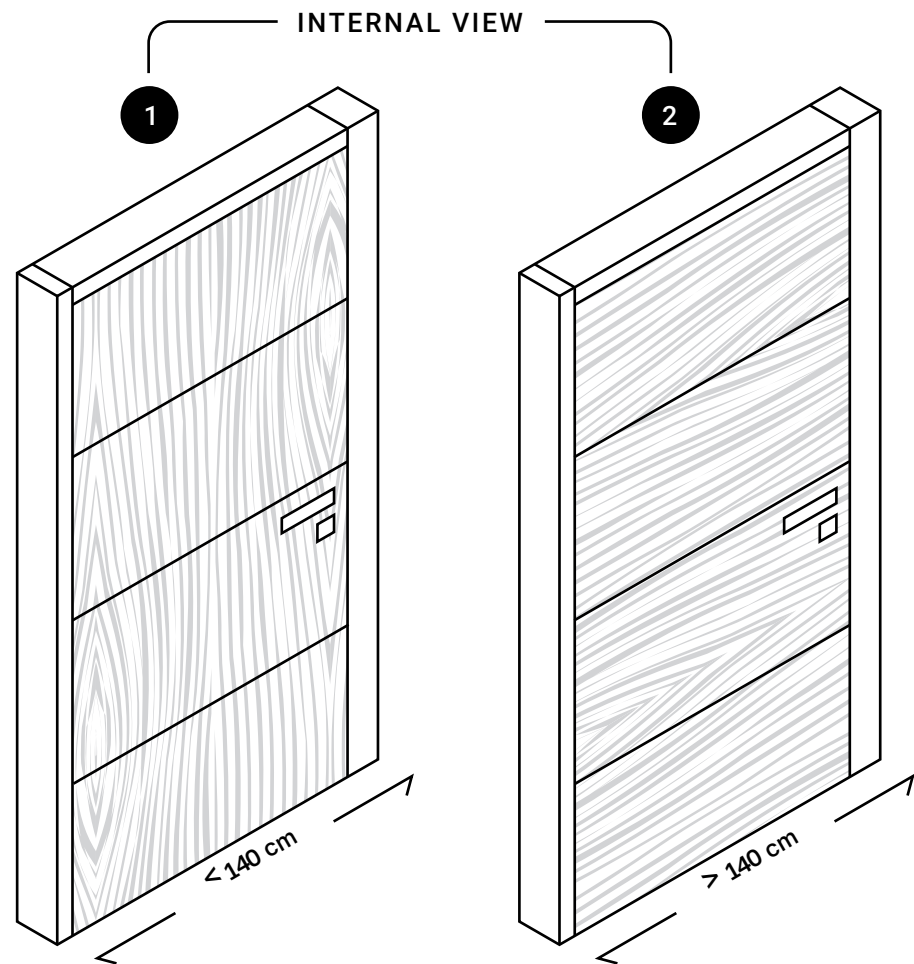

Internal and External Door Design Specifications

Type D.I. (Different Inside)

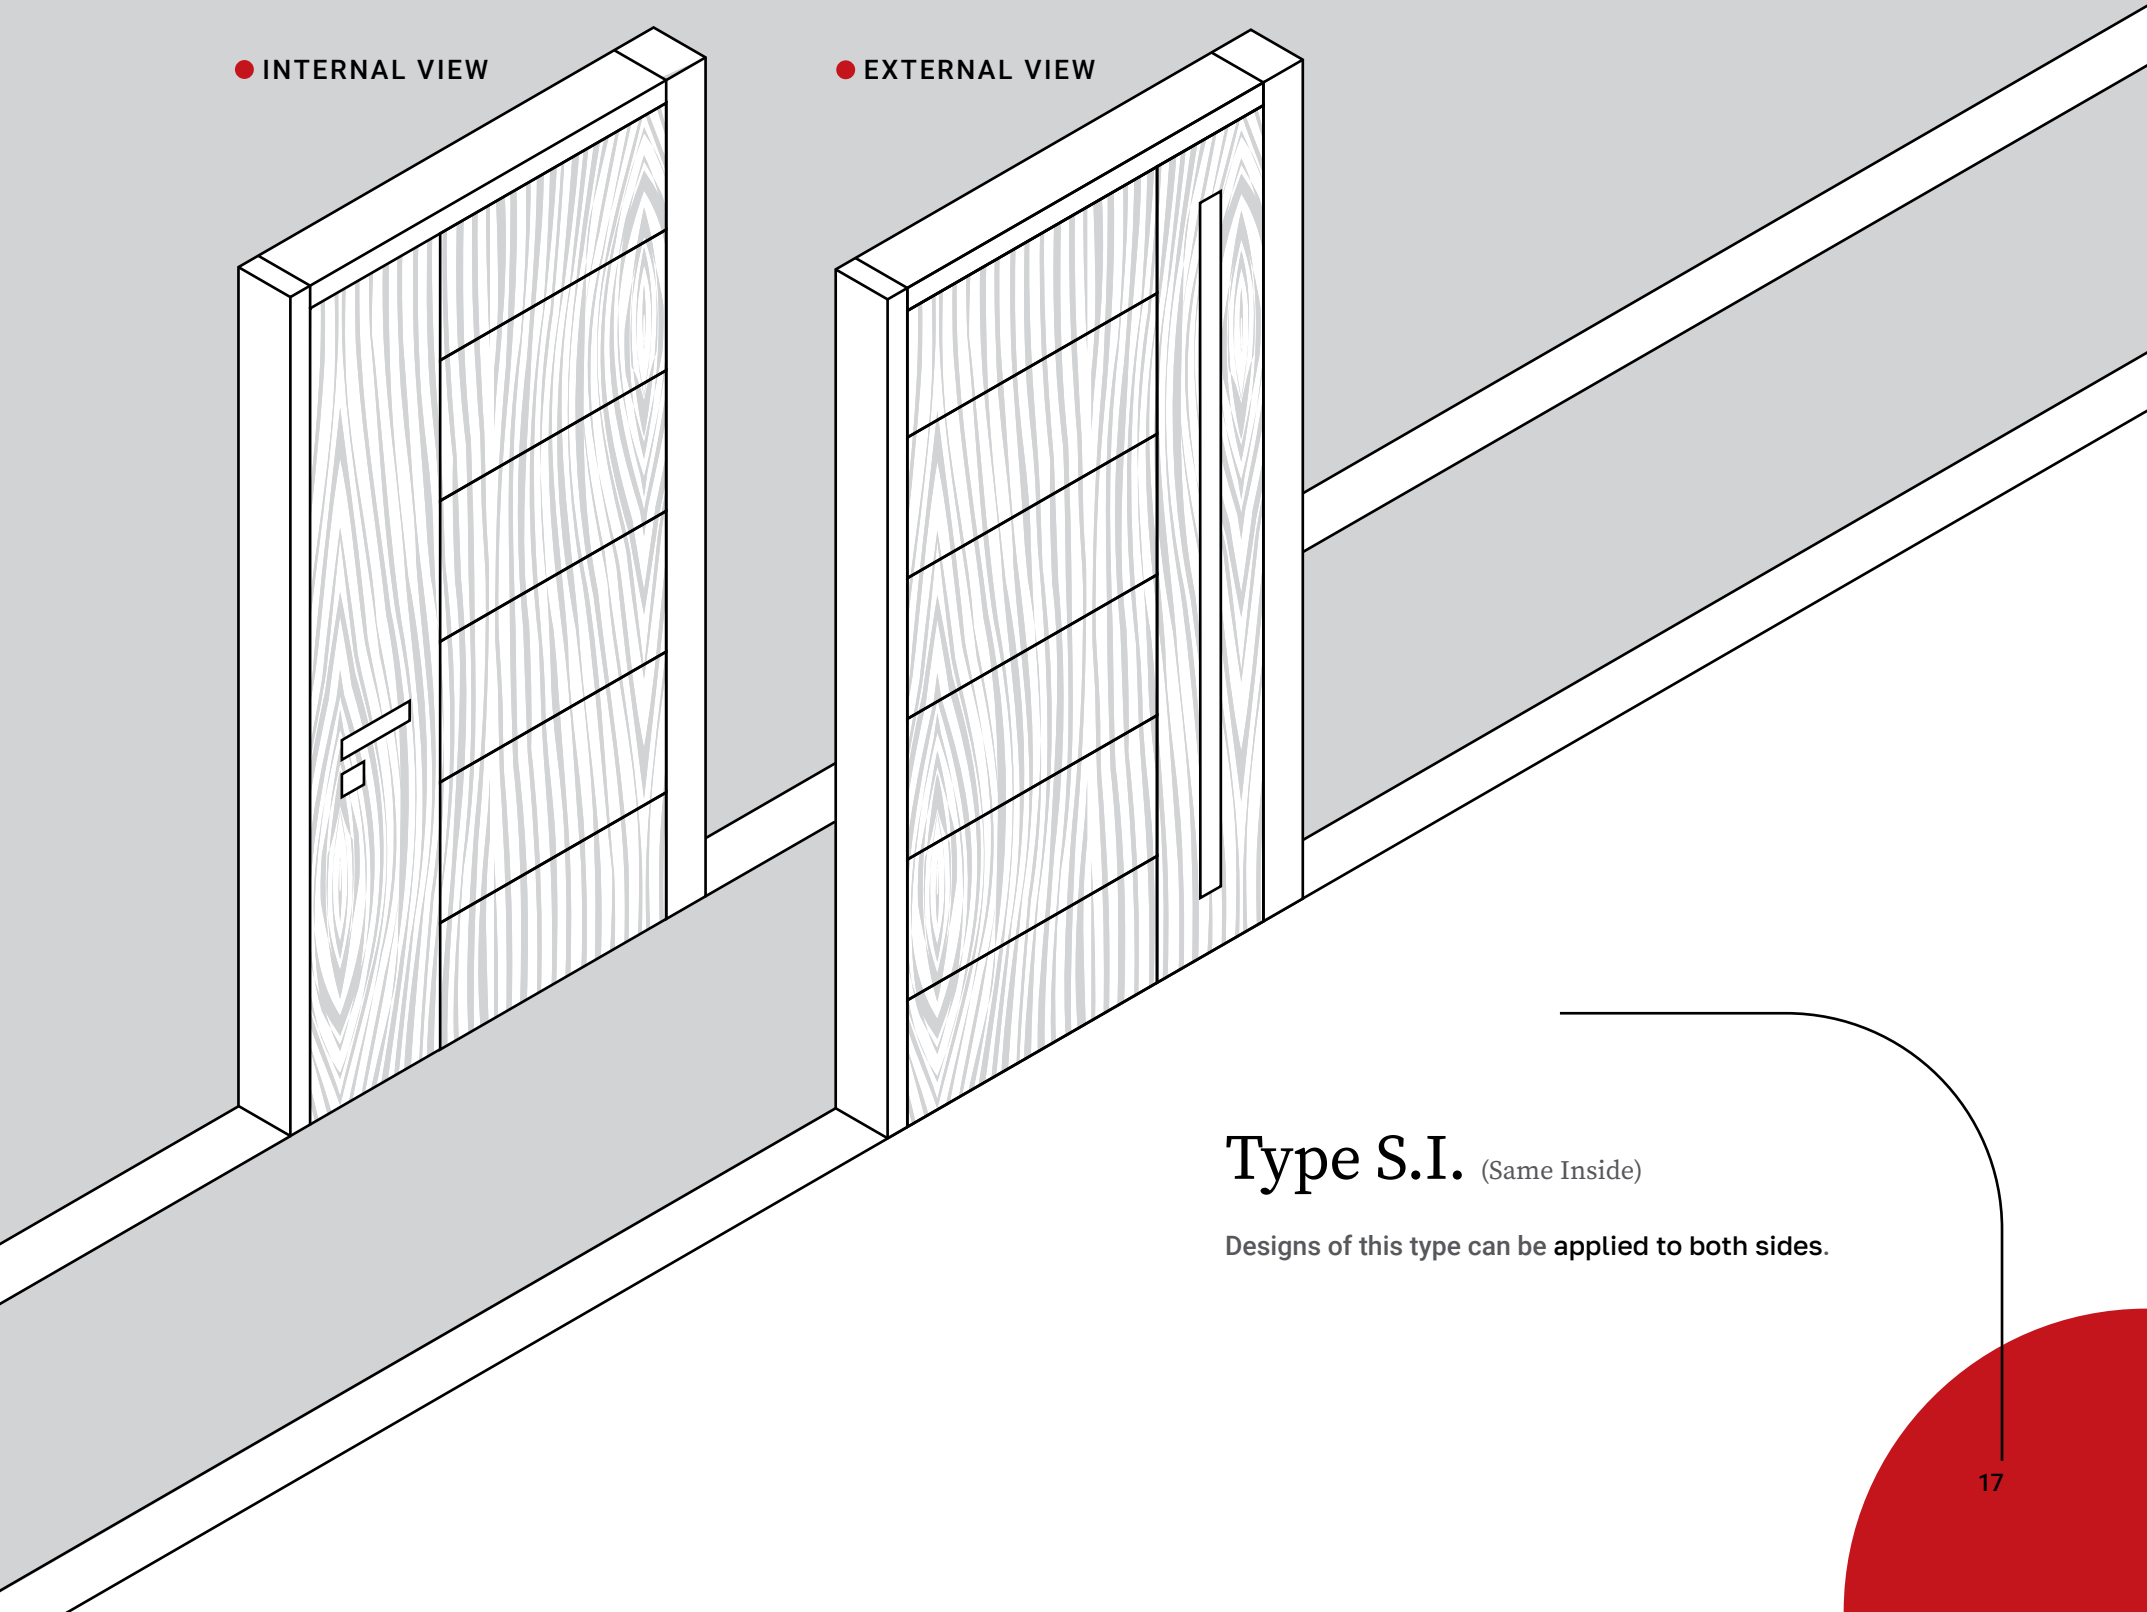

For designs that can only be applied to the external side of the door, the internal side features three engraved lines. For imitation paint, there are two options for the internal pattern:

- 1) For doors with a width less than 140 cm, the internal side features a vertical pattern.
- 2) For doors with a width greater than 140 cm, the internal side features a horizontal pattern.

● INTERNAL VIEW

● EXTERNAL VIEW

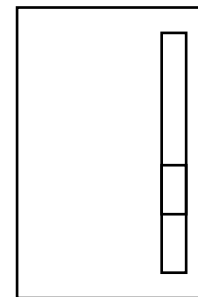

Type S.I. (Same Inside)

Designs of this type can be applied to both sides.
