Control method available

INGRESS PROTECTION

IP44

CCT

2700K - 6000K

For each series, specific styles can be identified by their suffix model numbers.  
There are more size options for the mirrors than those listed in the catalog.

Customisation service is available (if the customer provides drawings, descriptions or photos, we can manufacture accordingly).

## ABOUT US

It is undeniable that mirrors play a tremendous role in our daily lives. We start each day by looking into the mirror; we don't leave for work without checking the mirror; we even talk to ourselves in front of a mirror before a meeting just to boost our confidences; we take a glance at our reflection every possible chance we get; we do all that because we depend on mirrors to give us the confidence and validation we need. At Mirrotic, we understand how critical a beautiful, unique and functional mirror is to the quality of our lives.

Our collections are characterized by their innovative lines and ground-breaking concepts, offering you a quick and easy one-stop-solution. You can rest assured that there is something to suit every budget without compromising on quality. We offer reliable quality products which are not only durable but offer exquisite designs. Whether in terms of compliance, durability or design; our products will be up to par or even exceed your expectations.

We believe in challenging the status quo and are committed to provide the mirror that can bring your bathroom to life. We pride ourselves in our 20 years of expertise and knowledge of the products we supply. Our technical sales team are on hand to offer their expert advice and guidance. Everything that we do is focused on you and what you need.
